

Surfaces Area Practice

Name _____

1. Find the Surface Area of the Triangular Prism.

The triangular prism has 2 triangular bases and 3 rectangular faces.

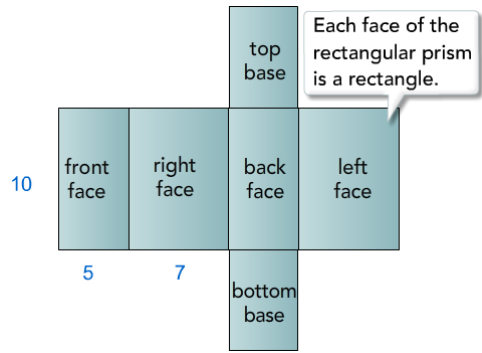

Left Face	Back Face	Right Face
Top Base	Bottom Base	Total Surface Area:

2. Find the Surface Area of the Square Pyramid.

Front Face	Back Face	Right Face
Left Face	Base	Total Surface Area:

3. Find the Surface Area of the Rectangular Prism.

Front Face	Right Face	Back Face
Top Base	Bottom Base	Left Base

Total Surface Area:

4. Find the Surface Area of the Rectangular Pyramid.

Front Face	Right Face	Back Face
Left Face	Base	Total Surface Area:

5. Find the Surface Area of the Cube

Front Face	Left Face	Back Face
Bottom Face	Right Face	Top Face

Total Surface Area:

6. Find the Surface Area of the Regular Triangular Pyramid.

Left Face	Right Face	Front Face
Base		Total Surface Area:

This is an Example. Your Work Should Look Just as Organized and Complete as Mine!!

1. Find the Surface Area

Draw and Label the Net

<p>2 Δ Bases:</p> $A = \frac{b \cdot h}{2}$ $A = ? \quad A = \frac{15 \cdot 20}{2}$ $b = 15 \text{ m}$ $h = 20 \text{ m}$ $A = 150 \times 2 \text{ A's} = \underline{300 \text{ m}^2}$	
<p>Bottom</p> $A = b \cdot h$ $A = ? \quad A = 20 \cdot 25$ $b = 20 \text{ m}$ $h = 25 \text{ m}$ $A = \underline{500 \text{ m}^2}$	<p>Right Face</p> $A = b \cdot h$ $A = ? \quad A = 15 \cdot 25$ $b = 15 \text{ m}$ $h = 25 \text{ m}$ $A = \underline{375 \text{ m}^2}$
<p>Left Face</p> $A = b \cdot h$ $A = ? \quad A = 25 \cdot 25$ $b = 25 \text{ m}$ $h = 25 \text{ m}$ $A = \underline{625 \text{ m}^2}$	<div style="border: 1px solid black; padding: 10px;"> <p>Surface Area</p> $300 + 500 + 375 + 625 =$ $\underline{1800 \text{ m}^2}$ </div>

2. Find the Surface Area

Draw and Label the Net

3. Find the Surface Area

Draw and Label the Net

4. Find the Surface Area

Draw and Label the Net

5. Find the Surface Area of the Regular Hexagonal Prism

Draw and Label the Net

2 Hexagon Bases	
6 Rectangles	

6. Find the Surface Area of the Square Pyramid

Draw and Label the Net

Square Base	
4 \cong triangles	

Example

Find the surface area of the rectangular pyramid to the nearest square centimeter.

Example

The mailing package has the shape of a regular triangular prism. Find how many square inches of cardboard it takes to make the mailing package. Round your answer to the nearest square inch.

Challenge:

You plan to build a birdhouse with one square doorway as shown. How many square centimeters of wood do you need to make the birdhouse?
